## Technical Skills

### Programming Technologies

- C
- C++
- Java
- JavaScript
- React
- Node
- HTML5/CSS

### API's & framework

- Rest api
- express
- SpringBoot
- Angular

### Familiar Databases

- Relational Databases (RDB)
- Object-Oriented Databases (OODB)
- MongoDB
- FireBase

### Testing Technologies

- Postman
- Selenium
- Azure Boards
- jira

## Strengths

- Communication
- Problem solving
- Time management
- Leadership
- Teamwork
- Adaptability

## Education

- Sri Lanka Institute of Information Technology (2021- present)  
*BSc. (Hons) in Information Technology - Specialization in Information Technology*
- Lumbini College Colombo 5 (2018-2020)  
*G.C.E. Advanced Level Examination-2020 (Technology Stream)*

## About Me

I'm a tech enthusiast who's always fascinated and curious about new technologies, not just programming languages and devices. I love to share the knowledge I have gained from my experiences with the rest of the world. I am a fast learner with keen problem-solving abilities and also I like to keep myself updated with the current global trends and technologies.

## Professional Experience

### Aqua Assist: Donation Platform (2023)

Technologies used: ReactJS, ExpressJS, NodeJS, MongoDB, Bootstrap I developed the user function for AquaAssist, a MERN stack web app connecting Sri Lankans to address clean water and sanitation issues. Implemented posting Issues and efficient data storage.

**Github Link**

### FlavorFeed: Social Media App for Foodies (2023)

Technologies used: SpringBoot, ReactJS, Spring OAuth2, MongoDB Contributed to developing a social media platform for food enthusiasts. Implemented user functionalities, post creation, profile management, following system, likes/comments, and notifications and shared posts. Used OAuth for enhanced security. I was responsible for the Shared post function of this project.

**Github Link**

### KnowMore: Online Learning platform (2022)

KnowMore is a user-friendly online learning platform (2022) built with the MERN stack, empowering users to share and explore diverse knowledge. With seamless login and user management which I was responsible for, it fosters a collaborative environment for anyone to contribute and access valuable information on any subject.

**Github Link**

### SoundNet: Online Music Store (2022)

Our Java servlet-based Online Music Store showcases seamless user management. It allows customers to effortlessly navigate, purchase, and manage their favorite music, enhancing their online shopping experience with ease and convenience.
